Controlling the future....Today

Attention: Cole Keyser (Village of Middleburgh Water)

Date: June 21, 2025

Re:

We are pleased to offer our quotation for this project. This proposal is based on the onsite service call where the existing controller is no longer functional. The existing controller was discontinued by the manufacturer in May of 2017. Below is a quote to replace the existing hardware with the manufacturer recommended replacements as well as modifying the existing programming and it's versioning for compatibility with the latest hardware replacement.

I. Controller Upgrade:

- Qty 1 – Allen Bradley Micrologix 1400 Controller
- Qty 4 – 16 point Discrete input modules
- Qty 2 – 4 point Analog input modules
- Qty 1 – 4 point Analog Output module
- Qty 1 – 16 point Relay Output module
- Qty 1 – All necessary internal miscellaneous items for the panel fabrication, assembly and wiring

All Design and Configuration including:

- PLC Programming
- OIT Programming
- On-site Installation and Startup Service
 - Additional Start-Up and Training available per our attached Field Rate Schedule

II. Exceptions to Specifications:

Supply and/or installation of any equipment not specified above

III. Price:

Total Net Lot Price **\$ 28,075.00**

Valid for 30 days from Quotation Date

IV. Not Included in Scope of Work:

- | | |
|---|----------------------------|
| - Physical Installation of Equipment, conduit or wiring unless listed above | - Overtime or Premium Time |
| - Field Wiring of Components, unless listed above | - Performance or Bid Bond |
| - Any items, equipment or software not specified above | - NYS Sales or Use Taxes |
| - Removal of any existing equipment or wiring | |

V. Warranty:

Parts: Manufactures' standard or 18 Months from shipment or 12 months from installation by Smith Controls; whichever occurs first. Labor is warranted for 12 months

VI. Delivery:

FOB: Hudson, NY
Delivery: To be arranged

VII. Invoicing & Terms:

Net 30 Days

QUOTATION

Controlling the future....Today

VIII. Alterations/Changes:

Any alteration or change from the specifications as detailed above involving extra costs will be effectual only upon written order and will be over and above the quoted price.

IX. Attachments:

- 2025 Field Rate Schedule

I would like to thank you for the opportunity to quote on this control system. After reviewing our proposal should you have any questions or require any changes, please contact me. Again, thank you.

Sincerely,

Timothy Keating
